Overview

GTO evolution

Galeon Yachts introduced the grand touring line of feature-filled day boats that melds the luxury fit and finish of its cruiser yachts with a streamlined design and truly incredible performance stats. The 435 GTO is the next-in-line of powerful, outboard models with its sleek contours and versatile space distribution on board, bound to stand out in any marina.

The silhouette is a clear evolution of the acclaimed 375 GTO with even more aggressive lines and eye-catching details fitted onto the two-tone exterior. The striking side profile features full-length hull windows and partially glazed balconies, while the wheelhouse is surrounded by glass for unobstructed, 360° views.

Versatile layout

With the additional space on board, the two main outside areas are capable of entertaining guests while cruising or anchored. The cockpit holds the aft bench which can slide forward and face opposite directions, while a rectangular table can be set up in the aft cockpit area for alfresco dining.

Extend the retractable sunshade for extra protection from the elements and offer your guests some much needed respite in harsh weather conditions. Keen fishermen will appreciate the six rod holders mounted on top of the roof.

Galeon Yachts

Beach Mode Engaged

Galeon Yachts are famous for introducing the Beach Mode to a wider audience, with deployable port and starboard balconies that extend the width of the cockpit significantly to provide additional space for activities and entertaining guests on board.

Climate Controlled Wheelhouse

Another unique feature comes in the form of folding glass doors dividing the cockpit to allow full climate control and added security in the wheelhouse.

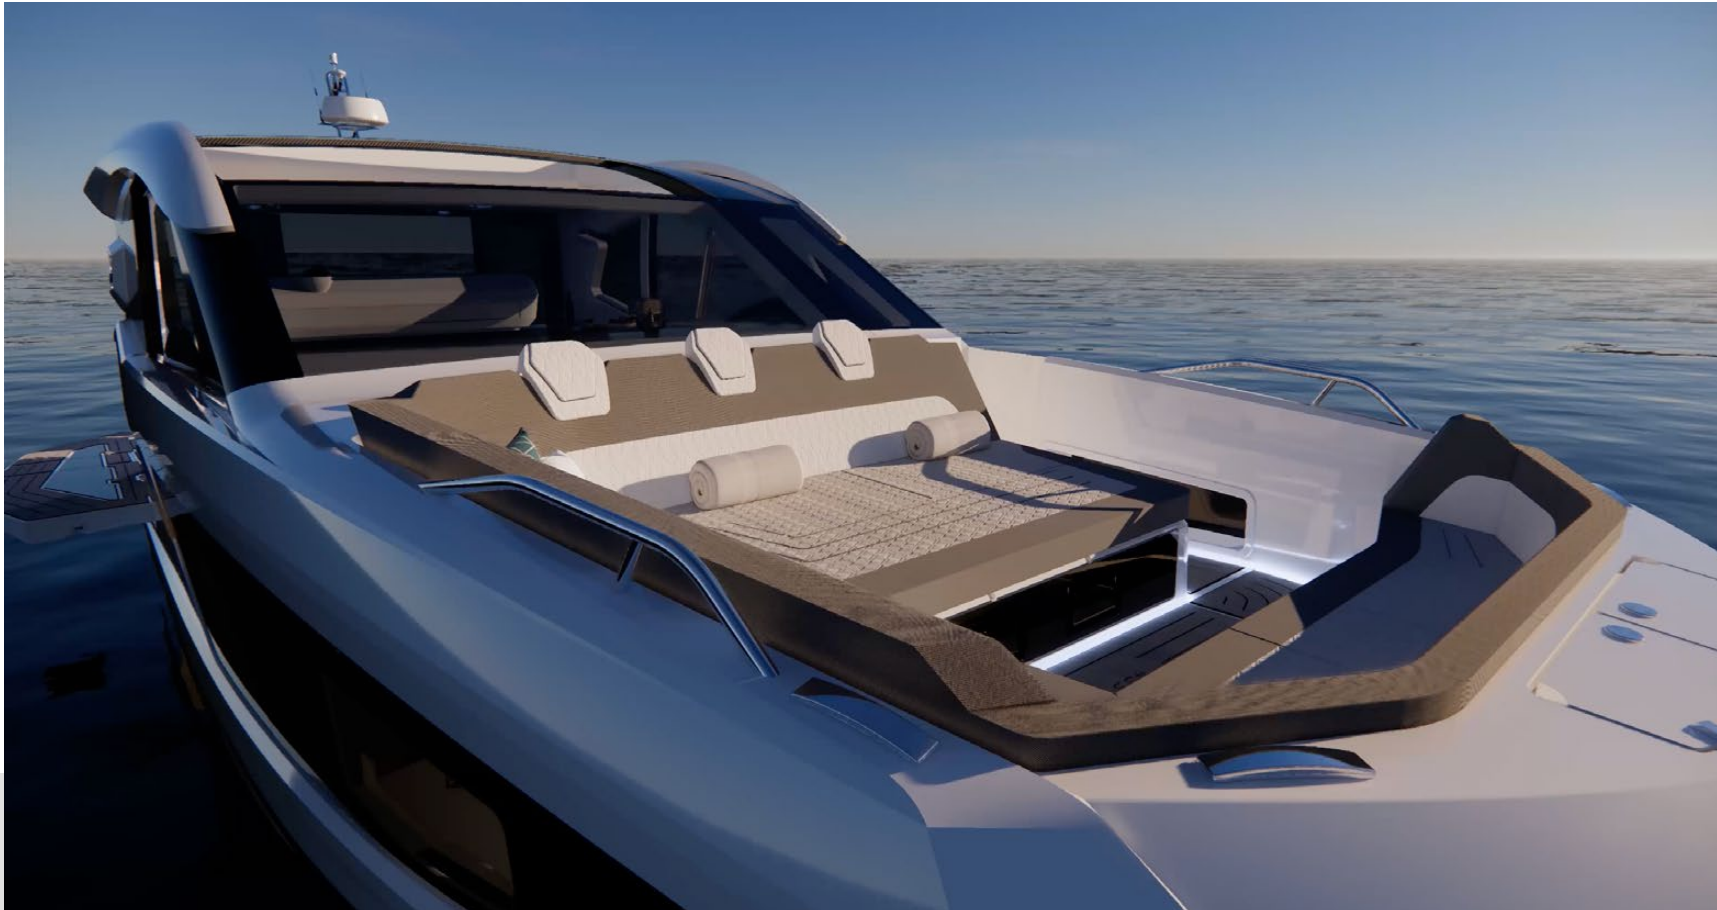

On board innovations

The main deck includes the port side wet galley, a U-shaped dinette and three independent sport seats opposite the helm station.

Both side windows can be lowered into the hull - a marvel of engineering considering their size and location. An oversized, tinted sunroof comes in two pieces and can be retracted at a moment's notice.

Adaptable bow area

The flush floor design allows easy, port side, access to the wide bow area, where a seating arrangement with a table or a complete sunpad awaits.

The front bench is set in a reclined position with sporty headrests and stylish, two-tone quilted upholstery.

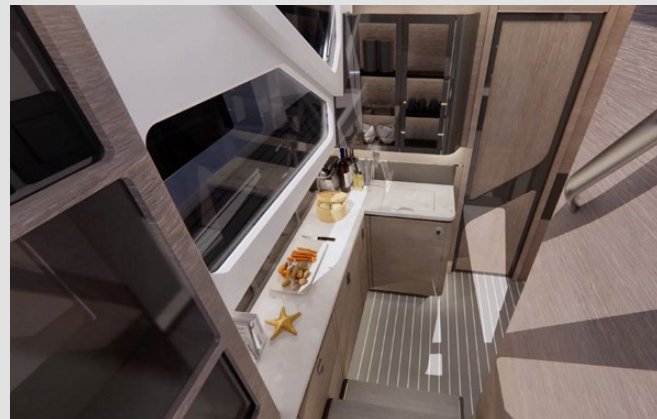

A soft to the touch, foam decking adds comfort and sophistication on board - just imagine your weekend getaway with the 435 GTO!

Lower deck amenities

Down below, a well appointed galley area holds generous storage and offers standing height with easy access to both guest cabins.

The head comes fitted with upscale cabinetry and a walk-in shower to keep things tidy and organized.

The owner's cabin

The master bedroom is moved forward and offers a proper double bed and a plethora of storage areas. The interior is well lit thanks to the oversized windows, ceiling skylight and dispersed LED illumination.

Quality and finish are up to Galeon standards with sophisticated and curved woodwork, stainless steel details and a variety of custom options to choose from.

Guest's accommodation

The guest cabin is located midship and holds a pair of double and single beds. Notice the full-sized doors for easy access during the day and privacy by night for your guests.

With top notch performance, striking design and upscale quality the 475 GTO is a worthy addition to the Galeon Yachts lineup, far exceeding the expectations for this class of vessel.

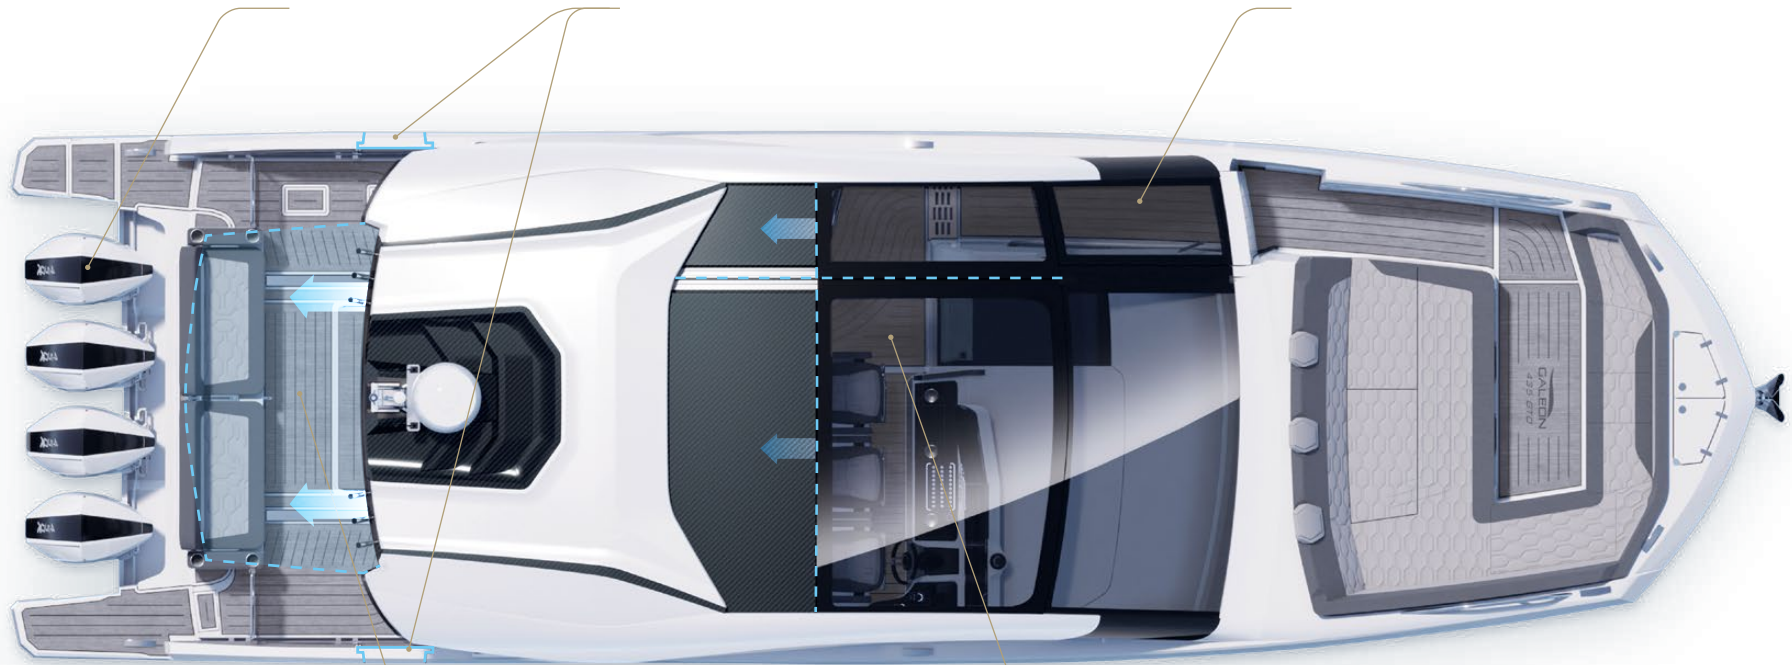

Overview

435 GTO

Spec up to four engines for a total of 2000 horse power

Side doors for safe and easy access hide flush in the balcony panel

Hinged glass panel and GRP doors allow quick bow access

The SureShade awning extends for extra protection from the elements

A two-part, retractable sunroof over the helm station

Main Deck

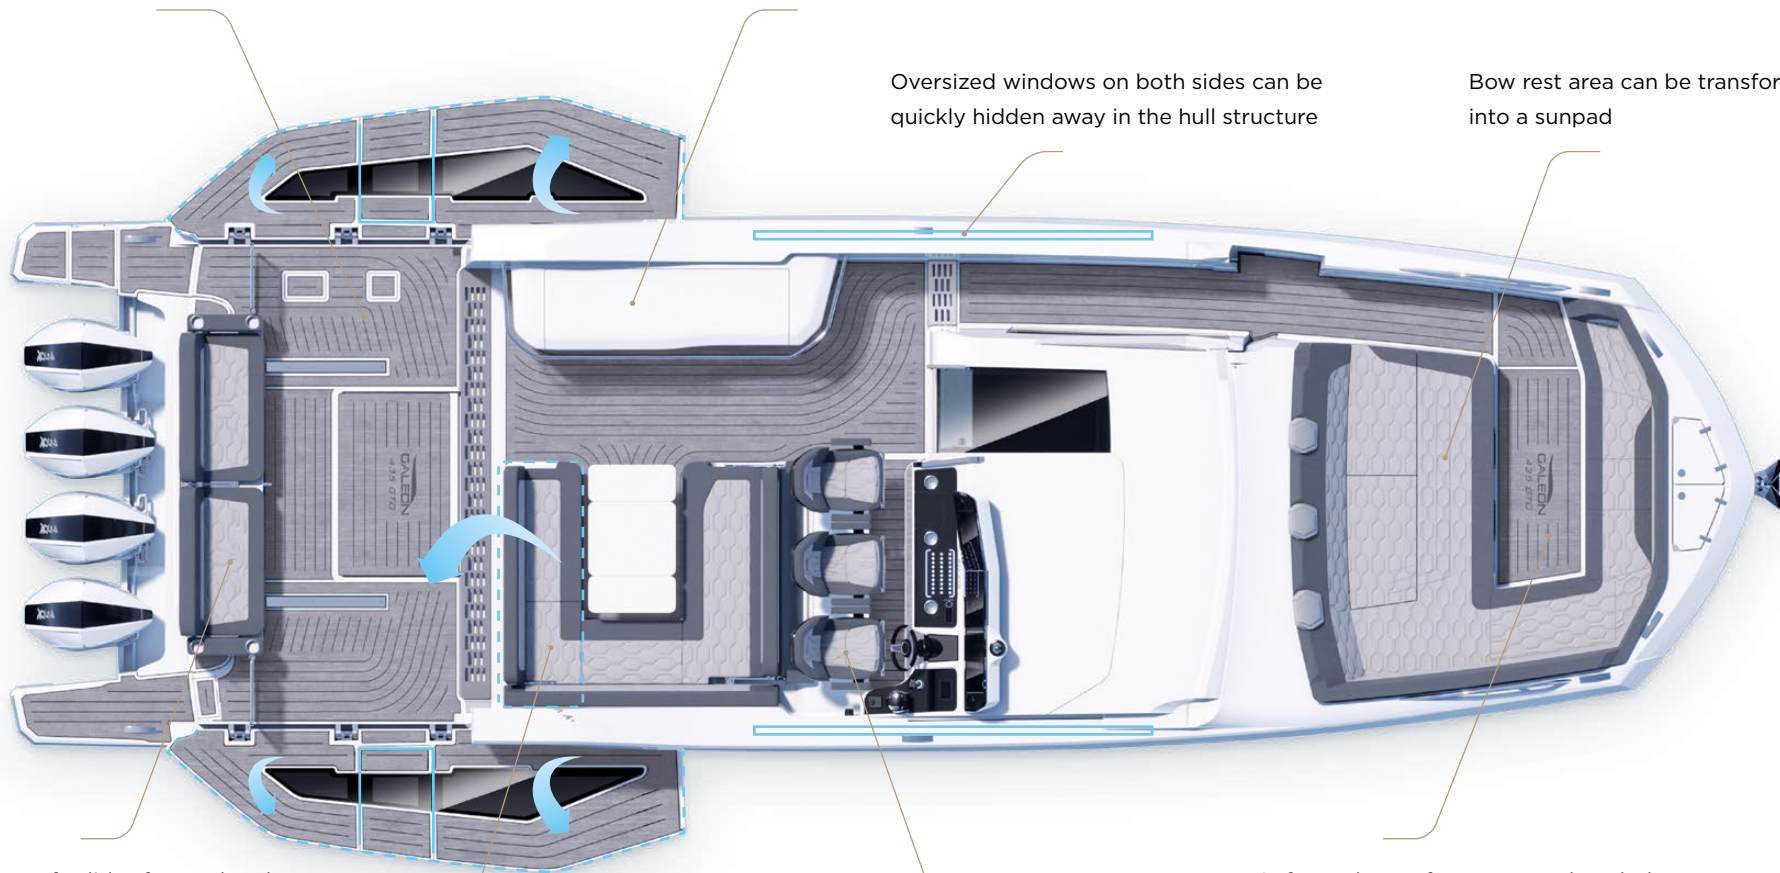

435_{GTO}

Extend both, partially glazed, balconies for extra space in the cockpit

Wet bar includes a sink, fridge, grill and extra storage

Oversized windows on both sides can be quickly hidden away in the hull structure

Bow rest area can be transformed into a sunpad

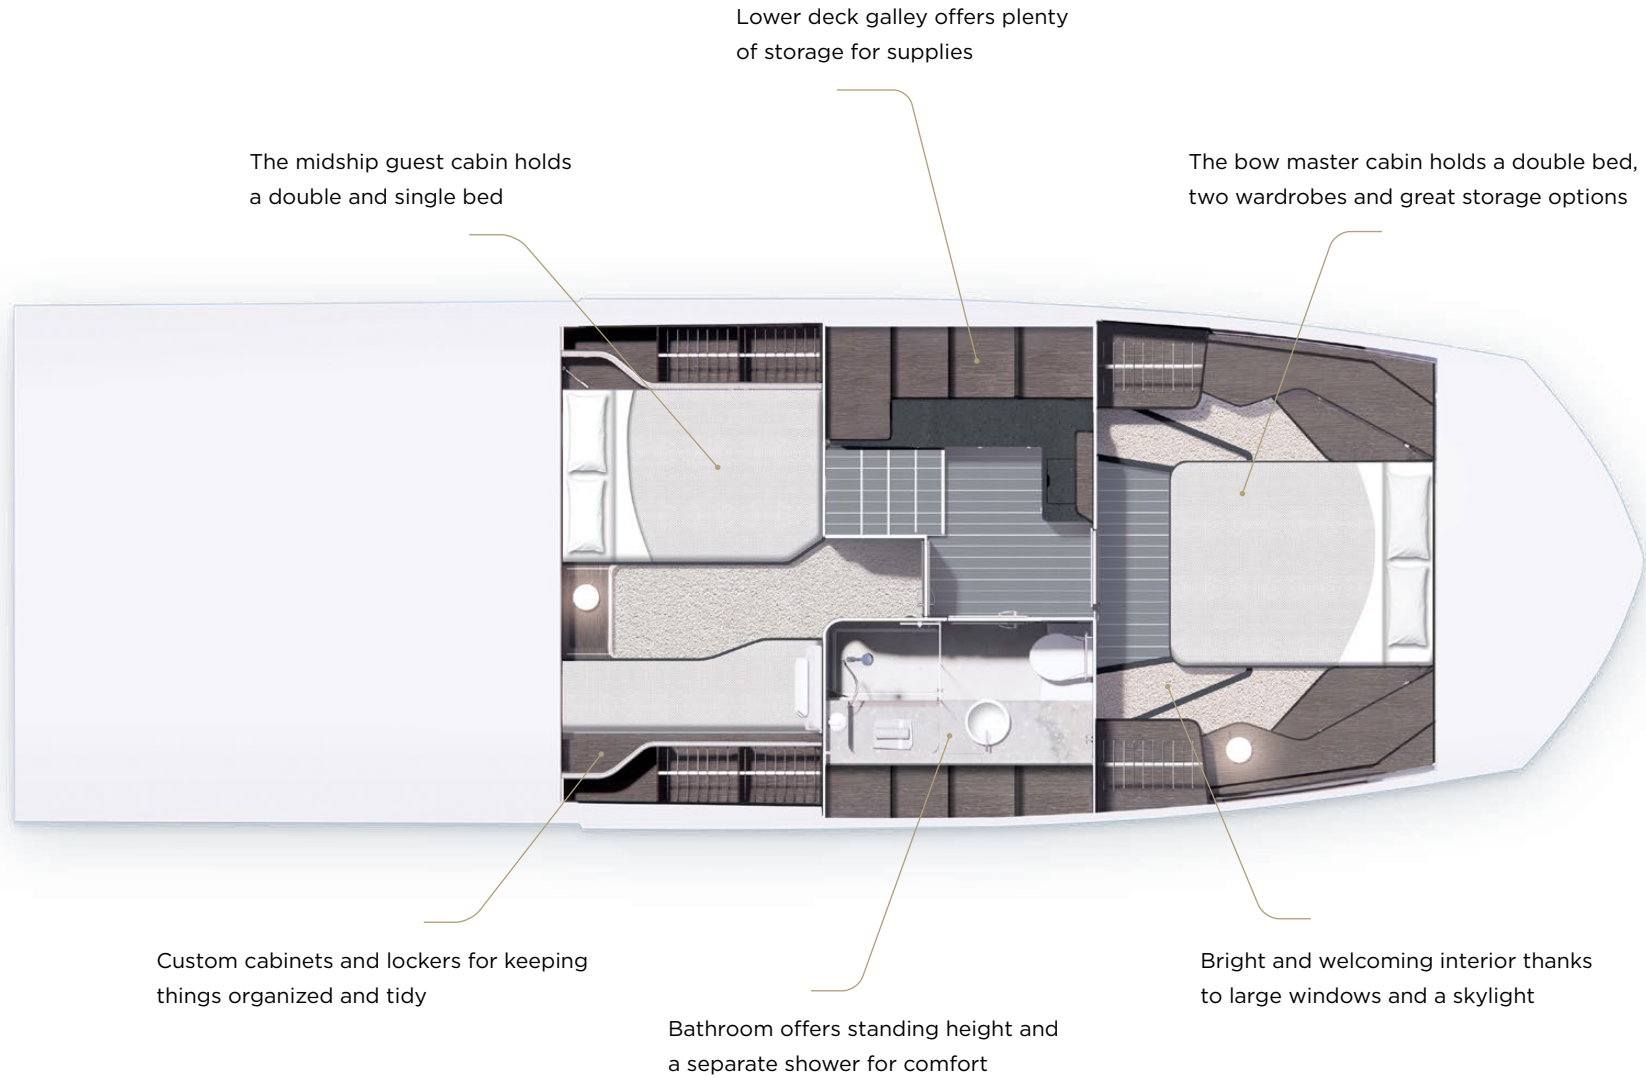

The sofa slides forward and can face both directions

A U-shaped sofa can be rotated 90° into the cockpit

Triple sport seats with armrests are electrically adjusted

Soft touch, Eva foam covers the whole deck for extra grip and comfort

Lower deck

Lower deck galley offers plenty of storage for supplies

The midship guest cabin holds a double and single bed

The bow master cabin holds a double bed, two wardrobes and great storage options

Custom cabinets and lockers for keeping things organized and tidy

Bathroom offers standing height and a separate shower for comfort

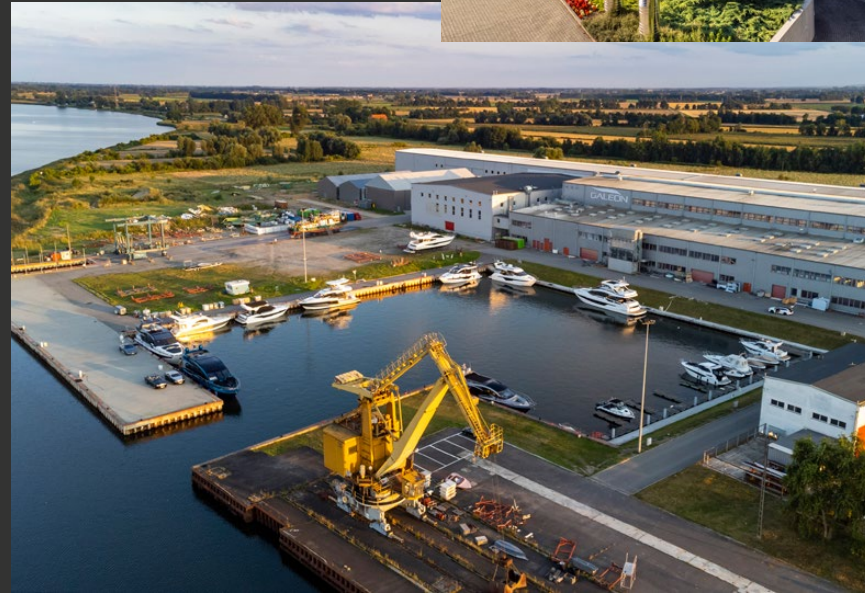

Bright and welcoming interior thanks to large windows and a skylight
